

Building Chatbot And Integrate To Application

Date	02 November 2022
Team ID	PNT2022TMID17964
Project Name	Smart Fashion Recommender Application

BUILDING CHATBOT:

The screenshot displays the IBM Watson Assistant Lite interface. The top navigation bar includes 'IBM Watson Assistant Lite', an 'Upgrade' button, a user profile 'Priya', and a 'Learning center' link. The main workspace is divided into two panels. The left panel, titled 'Conversation steps', shows a sequence of three steps. Step 1 is a greeting: 'Hey I am your personal subordinate. Your Job Recommender It's my pleasure to recommend y...'. Step 2 is a response to a user input '1 is B.E': 'Here are few jobs for your specified Degree [Engineering](https://linkedin.com)'. Step 3, which is highlighted with a blue border, is a confirmation prompt: 'Was this information helpful ?' with a green 'Confirmation' button. The right panel shows the configuration for Step 3. It indicates 'Step 3 is taken without conditions'. Below this, the 'Assistant says' section shows the same confirmation prompt with 'Yes' and 'No' buttons. At the bottom of the right panel, there are links for 'View response' and 'Edit validation', and a 'Preview' button with a play icon.

CHATBOT INTEGRATION:

```
window.watsonAssistantChatOptions = {  
  integrationID: "13f23c10-0747-4d32-96d2-3e71a6a7ccd7", // The ID of this integration.  
  region: "au-syd", // The region your integration is hosted in.  
  serviceInstanceID: "1ca1a1b9-9186-4b84-8341-6508cd8301e7", // The ID of your service instance.  
  onLoad: function(instance) { instance.render(); }  
};  
setTimeout(function(){  
  const t=document.createElement('script');  
  t.src="https://web-chat.global.assistant.watson.appdomain.cloud/versions/" + (window.watsonAssistantChatOptions.clientVersion || 'lat  
  document.head.appendChild(t);  
});
```
